this book examines the ethics in relation to city and urbanism by evaluating the strengths and limitations of rights as a conceptual tool from the comparative east west perspective in resolving urban controversies involving conflicts of rights between different classes different groups within the present generation present vs future generations human vs animals human vs plants and nature thereby facilitating urban policy making and good urban governance this book adopts an interdisciplinary approach integrating political theory ethics urban studies public policy making applications of ethics and political philosophy to social sciences to examine controversial urban issues in the hong kong context it challenges the general conception that philosophy and ethics are detached from everyday life with the philosophers engaging mainly in abstract intellectual pursuit and some of them even disdaining pedestrian applications of abstract thinking this book makes applications of ethics and political philosophy to real life urban contexts in hong kong thereby trying to highlight the normative in order to throw new light to the general approach and strategy to deal with practical urban issues facilitating out of the box thinking in the field of housing and urban studies stimulating scholars researchers and students in the fields urban planners urban managers and other professionals as well as urban policy makers

this book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected british eco science fiction novels these novels are john christopher s the death of grass 1956 j g ballard s the drought 1965 brian aldiss s earthworks 1965 and john brunner s the sheep look up 1972 all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious this book examines how even the smallest damage caused by human beings to the environment negatively affects them other living beings and the ecosystem they need to live and flourish in conjunction with these the factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised while examining how and why the environmental problems in the novels have arisen it is evaluated whether the authors propose solutions to these problems and if so what they are

this book increases the visibility clarity and understanding of ecological law ecological

law is emerging as a field of law founded on systems thinking and the need to integrate ecological limits such as planetary boundaries into law presenting new thinking in the field this book focuses on problem areas of contemporary law including environmental law property law trusts legal theory and first nations law and explains how ecological law provides solutions written by ecological law experts it does this by 1 providing an overview of shortcomings of environmental law and other areas of contemporary law 2 presenting specific examples of these shortcomings 3 explaining what ecological law is and how it provides solutions to the shortcomings of contemporary law and 4 showing how society can overcome some key challenges in the transition to ecological law drawing on a diverse range of case study examples including indigenous law ecological restoration and mining this volume will be of great interest to students scholars and policymakers of environmental and ecological law and governance political science environmental ethics and ecological and degrowth economics
