scholars of ancient mesopotamia the exploits and achievements of other mesopotamian peoples such as the assyrians and babylonians were already known to a large segment of the population through the old testament and the nascent field of near eastern studies had unraveled the enigma of the akkadian language that was widely used throughout the region in ancient times but the discovery of the sumerian tablets brought to light the existence of the sumerian culture which was the oldest of all the mesopotamian cultures although the sumerians continue to get second or even third billing compared to the babylonians and assyrians perhaps because they never built an empire as great as the assyrians or established a city as enduring and great as babylon they were the people who provided the template of civilization that all later mesopotamians built upon the sumerians are credited with being the first people to invent writing libraries cities and schools in mesopotamia ziskind 1972 34 and many would argue that they were the first people to create and do those things anywhere in world no site better represents the importance of the sumerians than the city of uruk between the fourth and the third millennium bce uruk was one of several city states in the land of sumer located in the southern end of the fertile crescent between the two great rivers of the tigris and the euphrates discovered in the late 19th century by the british archaeologist william loftus it is this site that has revealed much of what is now known of the sumerian akkadian and neo sumerian people although uruk was not the only city that the sumerians built during the uruk period it was by far the greatest and also the source of most of the archeological and written evidence concerning early sumerian culture kuhrt 2010 1 23 uruk went from being the world s first major city to the most important political and cultural center in the ancient near east in relatively quick fashion long before alexandria was a city and even before memphis and babylon had attained greatness the ancient mesopotamian city of ur stood foremost among ancient near eastern cities today the greatness and cultural influence of ur has been largely forgotten by most people partially because its monuments have not stood the test of time the way other ancient culture s monuments have for instance the monuments of egypt were made of stone while those of ur and most other mesopotamian cities were made of mud brick and as will be discussed in this report mud brick may be an easier material to work with than stone but it also

decays much quicker the same is true to a certain extent for the written documents that were produced at ur at its height ur was the center of a great dynasty that controlled most of mesopotamia directly through a well maintained army and bureaucracy and the areas that were not under its direct control were influenced by ur s diplomats and religious ideas ur was also a truly resilient city because it survived the downfall of the sumerians outright destruction at the hands of the elamites and later occupations by numerous other peoples which included saddam hussein more recently

alvena gadotti offers a much needed new edition of the sumerian composition gilgamesh enkidu and the netherworld last published by aaron shaffer in his 1963 doctoral dissertation since then several new manuscripts have come to light prompting not only a new edition of the text but also a re examination of the composition in this book gadotti argues that gilgamesh enkidu and the netherworld was the first not the last of the sumerian stories about gilgamesh she also suggests that a sumerian gilgamesh cycle currently only attested in old babylonian manuscripts ca 18th century bce was in fact developed during the ur iii period ca 2100 2000 bce providing a new way to look at the sumerian gilgamesh stories this book is relevant not only to scholars of the ancient near east but also to anyone interested in epic and epic cycle
